February 9, 1962

Dr. Joshua Lederberg
Department of Genetics
Stanford University
Palo Alto, California

Dear Josh:

I think you may be interested in this letter I have written upon the request of Mr. Oran Nicks at Headquarters. I have been asked by Mr. Nicks to prepare further documentation of sterilization for consideration by the Steering Committee.

I forgot to give you the enclosed flow sheet which we obtained at General Mills last week. I think this gives a better general explanation of their study program than the first two reports. After our visit, we expect a considerably better report in the future.

Sincerely,

JET PROPULSION LABORATORY
